

Access the 360° videos in Solstien 3

We recommend that you watch the videos in Solstien 3 using a VR headset for the best possible experience. The videos are intended for educational use within health- and social care. You can use different types of VR headsets and various software. We use Oculus Quest 2, and the videos are played using the Showtime VR software.

If you want to make the videos available for your own VR headset, you can download them from Vimeo using the links below. On the same links, you can also watch the videos on a PC.
